Usage Instructions

General Instructions for Using Adobe Reader

See the help files in Adobe Reader for general information about navigation, viewing, and printing.

Additional Usage Instructions

- Return to Main Document—Clicking on this bookmark, which is the last link in the list in the navigation pane in each sublevel, will return you to the title page and the list of links for all the sections of the Toolkit CD.
- Print—For your convenience, the print command appears as a link in the navigation pane in selected subsections. For example, if you want to print out a set of the Bible book cards from the Student Materials section, click on the link that appears below the Bible book cards link. A dialog box will pop up with the appropriate page numbers already filled in. To print out a single page or a different range of pages, use the All, Current page, or Pages option as desired. (When printing, note that the page number on the page does not always match the position of the page in the PDF. For example, in the Student Materials section page 4 is actually the fifth page in the document because the cover page for the section is unnumbered. So to print page 4, you need to enter 5 in the page field of the print dialog box.)
