Geogloss

**MOUNTAIN**

an area of land rising high above its surroundings

SEA LEVEL

the level of the ocean's surface, often used to determine elevation of land

VOLCANO

an opening in the crust of the earth through which molten rock, dust, ash, and hot gases are thrown out

VALLEY

a long, narrow area of low land between mountains

RIVER

a natural stream of water flowing into another larger body of water

BASIN

a natural or man-made hollow filled with water

HARBOR

a sheltered area of water along a coast, serving as a port for ships

BAY

a broad part of a sea or lake partly surrounded by land

PLAIN

a large, flat area of land without any trees

STRAIT

a narrow channel connecting two bodies of water

PENINSULA

a piece of land almost surrounded by water and connected to a larger body of land

COAST

the edge of land touching the sea

CLIFF

a high or steep overhanging edge of rock or earth

OCEAN or SEA

the large body of salt water covering over three-fourths of the earth
